

To be eligible for your \$25 rebate:

- Purchase and install your natural gas detector
- Complete the rebate application form
- Include a copy of the bill of sale
- Include the UPC symbol cut from the product packaging
- \$25 will be credited to your SaskEnergy Account
- Offer limited to two (2) natural gas detectors per address

Note: Models that detect carbon monoxide only are not eligible for the rebate. You must purchase a model that contains a natural gas (methane) detection component.

\$25 Natural Gas Detector Rebate

Detecting a Natural Gas Leak

The most common way to detect a natural gas leak is using your sense of smell. The use of a natural gas (methane) detector is an additional and/or alternative safety measure for detecting a natural gas leak.

Important Natural Gas Safety Information

- Natural gas is colourless and odourless. SaskEnergy adds an odourant, mercaptan, to natural gas that smells like skunk or sewer gas.
- Most natural gas leaks occur outside the home due to ground shifting or unintentional contact with an underground pipeline.
- Annual maintenance of your natural gas appliances will give you peace of mind and ensure that your equipment is running safely.
- Most gas detectors also detect carbon monoxide (CO). These detectors are appropriate for your home.
- You may want to consider purchasing a second natural gas detector for your garage, keeping in mind that a carbon monoxide detector is not appropriate for a garage.
- Smoke detectors do not detect natural gas.
- When purchasing your natural gas detector, we recommend looking for a CSA approved or Underwriters Laboratory (UL) listed model.

SaskEnergy Account Number

Number of natural gas detectors purchased:

1 detector 2 detectors

Installation location: Residential Commercial

*To be eligible for this rebate offer you must be a SaskEnergy customer. All information must be completed, including a valid SaskEnergy account number matched to the address indicated, a copy of the bill of sale for a gas detector and the UPC code symbol cut from the product packaging. Offer subject to cancellation without notice at any time. The rebate is up to \$25.00, per detector, but will not exceed the actual cost of the gas detector. Please allow 6-8 weeks for your credit to be applied to your SaskEnergy account. Offer limited to two natural gas detector rebates per address purchased on or after January 1, 2011. Completed application and applicable proof of purchase must be submitted within one year of purchase to qualify.
